Sharon and Shane Devlin

ABOUT GRAPHIX

Shane and Sharon Devlin founded GRAPHIX in the lounge room of their home in 1995.

In the early days they offered a graphic design and print brokerage service only. Over the years since then, however, they have bought five other complimentary manufacturing businesses. Each purchase was made so that GRAPHIX could broaden their range of products and services.

GRAPHIX today is your complete brand development and management company, a truly 'one-stop-branding-shop'. Despite all the changes over the years one thing has always remained the same. Shane explains: "While growing GRAPHIX we have always tried to keep the small business feel. What matters to us is building relationships, listening to and learning from you, our clients, and giving you the best products and services we can."

All feedback is gratefully received and encouraged as they constantly strive to deliver a more responsive, problem solving service to you.

DESIGN

Logo design and branding.

Whether you need a few simple amendments to your existing artwork or a complete brand identity created from scratch we can help.

PRINT

We own the latest digital printing press technology.

This gives you access to the highest quality printing currently available in New Zealand. With 2 identical presses we always have a back-up available in case of mechanical problems so your printing will always be consistent in colour and delivered on time.

SIGN

Often the first thing your customers see.

Whether it's on the outside of your place of business, at an exhibition, or driving around on your car, we can produce a wide array of signs. Let our print experience give your message the boldest platform possible.

PROMOTIONAL PRODUCTS

Say 'Thanks' to your customers.

A branded gift can help your company stand out from the crowd and give your customers another reason to remember you and to continue using you.

OUR GRAPHIX GUARANTEE

RIGHT FIRST TIME

If you are unhappy with the end product or if we make a mistake, our top priority is to replace the job at our expense.

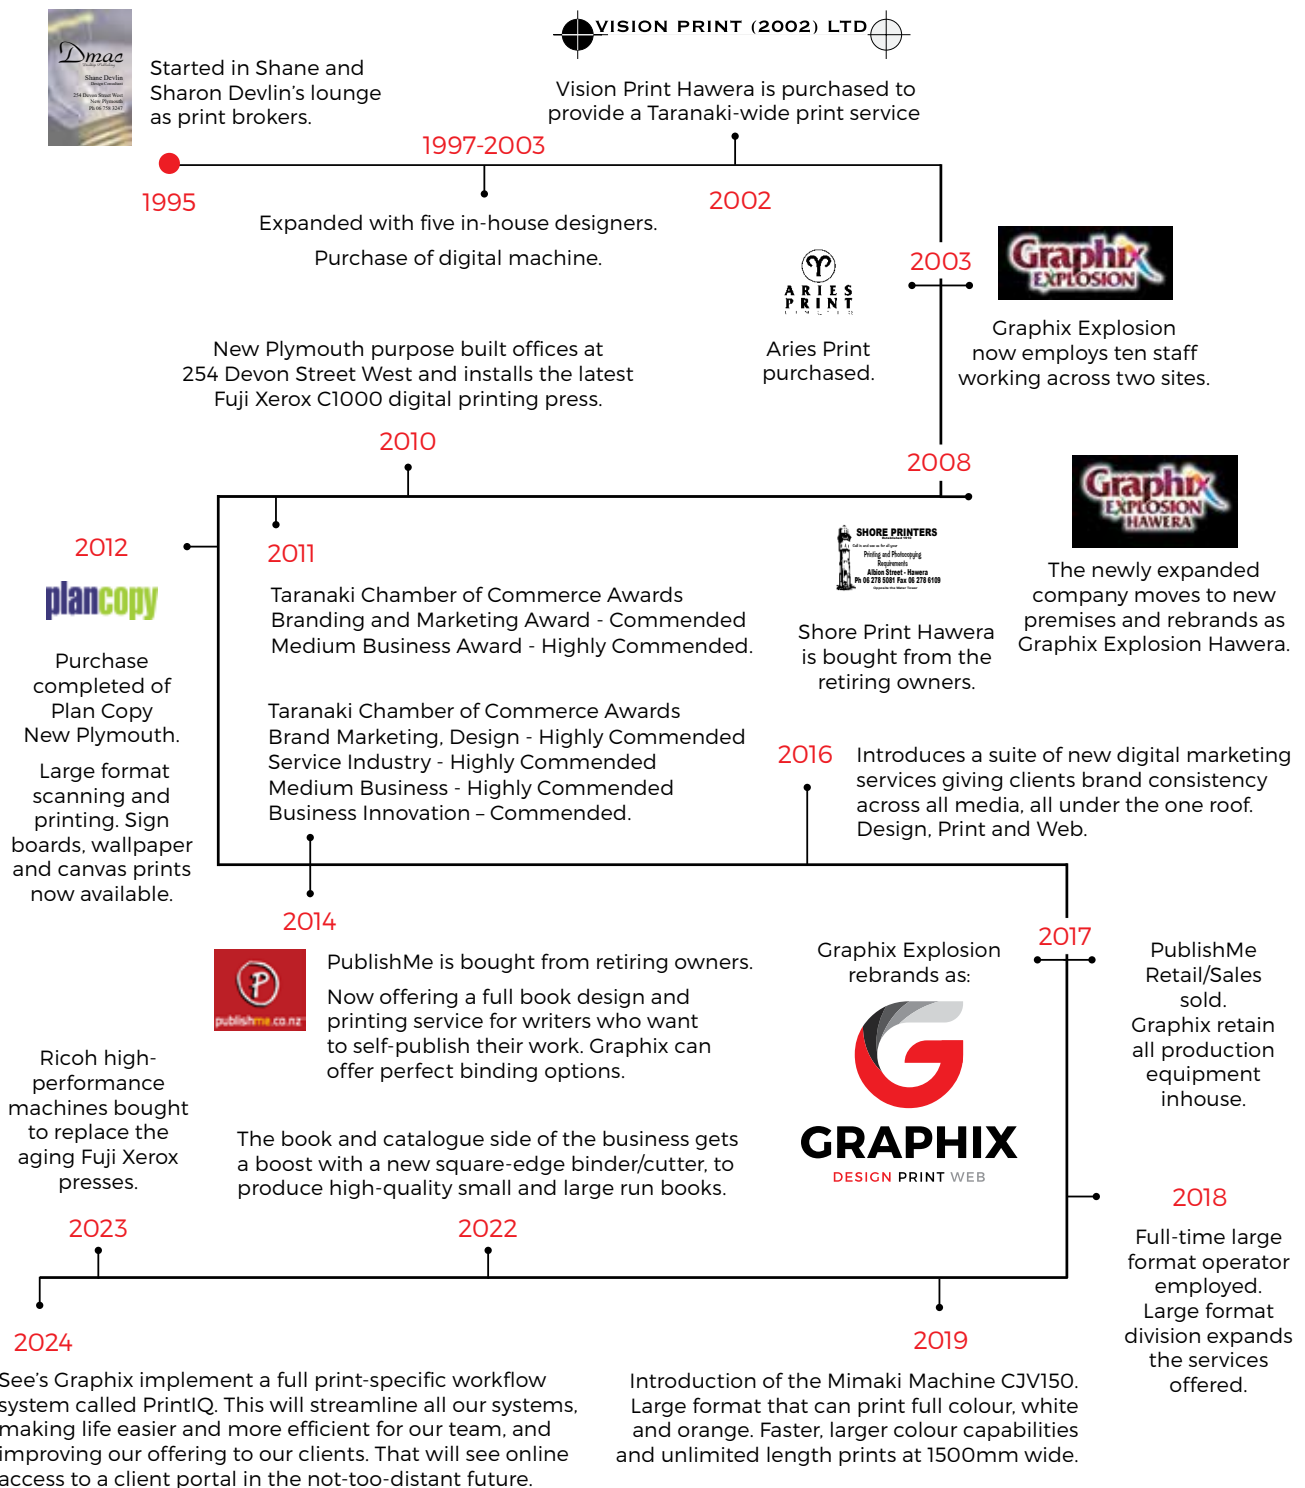

...AND ON TIME

If you do not receive your order in the time we agree when you placed your order, then the job is yours, free of charge.

NO HIDDEN COSTS

You'll know exactly how much your job will cost before you place your order. No more unexpected costs to pay.

CELEBRATING OVER 25 YEARS OF BUSINESS LOCALLY

TESTIMONIAL

When we were planning our premiere in Taranaki, we knew we needed someone local who could deliver the assets we needed on tight turnarounds. Graphix delivered and then some, going above and beyond to take site visits and provide quick thinking solutions for our print needs. It was super helpful to have that local knowledge with us being based up in Tāmaki. We would recommend them for anyone with print needs!

SHOWCASE

PIKI LANE

Piki Films (JoJo Rabbit, Hunt for the Wilderpeople) and Sandy Lane Productions (Bad Behaviour, Juniper) have brought the film 'The Mountain' to Taranaki.

Graphix was fortunate to be involved in such a prestigious production, Piki Lane was looking for a reliable local printer that could guarantee the fast turn-around of a large variety of props that the film required almost daily.

We built a strong relationship over the weeks of filming, and it was fun to be producing many unusual projects that required so much attention to detail, and working with the stunning artwork that showcased our Maunga.

From production to the local marketing of the film saw us apply window signage to Venture Taranaki and the Devon Street entrance to Event Cinema. Along with 50 metres of eyeleted banners covering the temporary fencing and bunting for the film premiere at the TSB Showplace.

SHOWCASE

ZOA LIQUOR

The ZOA liquor team has been perfecting their wine making for over 30 years. Using only the best local ingredients their delicious wine is then artfully distilled transforming it into a new dimension of taste, concentrating the flavour. If you love feijoas, you will love ZOA's Feijoa Vodka. Winner of New Zealand's best vodka overall at the 2023 NZ Spirit Awards, it outscored well known vodkas such as Grey Goose and 42 Below.

Blair from ZOA first came to the team at Graphix in 2020, looking for a trustworthy local print shop to partner with that could print his high quality labels. We started with the Vodka labels which needed a clear vinyl base and a white under-print to really get his colours to pop, and with Graphix's Mimaki wide format machine we were able to achieve the desired colours and finish for these products. After this we began printing many labels of varying finishes including, metallic gold and matte laminates.

As their product range grew ZOA came to us with the challenge of "Tamper Proof Labels" - they needed to be very small paper labels that could be applied to the lids of sealed bottles before being distributed to stockists. These labels were too small for our standard cutting method, however they were a perfect job to showcase our new OKI Label printer/cutter. Blair was stoked when we told him we would not only be able to supply these labels, but also supply them on a roll, which meant easier application onto the product for him.

In our nearly 5 years working with Blair and the team at ZOA we have gone on to produce many products to aid in his brands journey, including Clear Labels, ACM Signs, Posters, Gold Labels and info cards.

We are proud to work with such a successful Taranaki based company and we look forward to continuing our relationship.

OLIVE & CO

Olive & Co is a New Zealand based brand established in the heart of Taranaki by a mother-daughter duo who are committed to delivering eco-friendly, non-toxic and 100% natural soy wax candles and wax melts.

Julie and Katie approached Graphix after they were having quality and supply issues with their overseas suppliers. They were looking for a local business, that could offer a consistent, high-quality product that they could rely on. We investigated different stock options and were able to source and produce everything they were looking for.

Olive & Co produce beautiful natural products, and we are proud to be able to supply point-of-sale options that fit in perfectly with their company values. Such as:

- Labels for glass candle holders
- Fabric bags for the candles to be packaged in
- Swing tags that attach to the bags contain product names & descriptions
- Candle care postcards
- Business cards
- Acrylic arch signage

The team at Graphix are incredibly friendly and know how to put your vision to life. They have fabulous knowledge of materials and products that best suit your needs. Prices are affordable, service is friendly and time frames are quick.

FLYERS

Flyers are an excellent product to use to publicise an event or service. As they're larger than business cards and postcards you can include much more information and images. This gives your clients all the details they need to make a buying decision.

They also fit neatly inside standard envelopes so they're perfect for direct mail advertising campaigns.

Flyers can be printed on one or both sides so you don't have to spend more than you need to.

BROCHURES

Brochures are a very flexible advertising tool that speak to people on the go. An effective brochure should capture someone's attention immediately and then spark them to react. You can use them to publicise an event, promote a service, or sell a product.

They also act as communication between you and the reader, letting them know what you can do for them. They represent you when you're not there.

Brochures are typically printed A4 size and folded either in half to make an A5 page brochure or in thirds to create a 6 panel brochure.

CATALOGUES, BOOKS AND MAGAZINES

Graphix has invested a lot in the production of books, catalogues, magazines and other multipage publications.

Being able to offer many different binding options enables us to offer a cost effective service for both high and low volume print runs. All design, print and finishing can be done onsite, from the print and lamination of book covers, layout and numbering of all pages, through to organising e-books, QR codes and proofreading pages if this is a requirement.

Our binding options include Perfect Binding, Saddle-stitch Stapling, Plastic and Wire Binding.

WHAT PEOPLE SAY

The three biggest benefits of using Graphix: They are local and accessible. Their sector knowledge and abilities are top notch. The team is friendly and professional. We would absolutely recommend Graphix as a partner, dialogue is free-flowing, problem solving is a key strength and the products received are on point and "as ordered". **Craig Nielsen** - Conductive Education Taranaki Trust

POSTCARDS

Postcards pack a powerful promotional punch that is communicated on a very intimate level. They are cost effective to produce and post, significantly stretching your marketing dollar. They provide a low cost way to generate leads, direct people to your website, test offers, conduct surveys, announce new products or send a quick note or a thank you to a client. Even people who usually ignore other advertising will find it hard to avoid looking at your message when it's on a postcard.

PRESENTATION FOLDERS

GRAPHIX - Design Print Web - has developed a unique two-piece presentation folder. The benefit of this design is to dramatically reduce the cost. Quantities of as few as 25 are now viable. Previously the minimum cost effective amount was 500 units.

Our new design allows us to mass produce the back panel and digitally print the front panel separately as required. The join is barely noticeable and the finished product is superb.

- Digitally printed full colour front cover.

MENUS

High quality menus of any size, colour, on paper or card, even tear proof, as well as many hard bound covers with change out internal pages. Finishing options include, lamination, creasing, hole punching and stapling.

CHRISTMAS / GREETING CARDS

Christmas cards are a cost-effective way to thank your customers for the business they have given you and to wish them all the best for the next year. We can print your company logo in full colour which helps to reinforce your brand in your customers' minds.

We also print cards that you can send to family and friends. By using your own image and message you can create a unique and memorable card which won't be the same as any others they receive. The cards are printed on high quality card which produces an excellent finish.

It usually takes five working days to print and all our cards are supplied with matching envelopes. This means you have less to worry about at the busiest time of the year.

You can supply your own image, or we have a large selection of cover images to choose from. For ideas you could also look on www.shutterstock.com for inspiration. They have thousands of searchable images that cost very little for us to purchase on your behalf.

NOTE PADS

WOULD YOU LIKE TO REWARD YOUR LOYAL CUSTOMERS WITHOUT BREAKING THE BANK?

Keeping existing customers buying from you is vital to all businesses. It is estimated that it costs seven times as much to find a new customer as it does to retain an existing one. If you work out the lifetime value of your customers you can see that it's worth rewarding them with a useful gift if it helps to keep them buying from you.

Branded products are an excellent way to:

- Keep your company name visible at all times
- Reward your customers for buying from you
- Promote your brand at an expo stand
- Are useful items which are kept and used again and again.

Isn't it worth spending a little on each of your customers to help keep them buying from you?

Pretty stoked with our new signage!! And 1st customers of the day even commented how good it is!! Our signage gets pretty trashed with the winds we get here and hopefully this one will be heavy enough!! It's designed so we can switch up the wording. A MASSIVE thanks to Shane at Graphix for getting the boards sorted & printed and helping us get our idea to work!!!

FLAGS - ADVERTISING

Flags are a fantastic way to draw attention to your shop or office building, trade show stand or event. The most popular are teardrop and feather flags. They are supplied in a choice of three different sizes and printed in full colour on one or two sides. We also supply a full range of fixing hardware for permanent or mobile installation. The flags are very easy to put up and take down and each is supplied in a sturdy canvas bag for easy transportation.

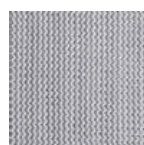

If you need to advertise different products during the year, or if you're having a sale, we can also print more than one flag. You can then swap the flags as you need them, using just one set of flag hardware.

Printed using a full colour dye sublimation process which means we can match most PMS and all CMYK colours. Inks are UV stabilised from USA & Europe providing long lasting, vibrant pigments.

Flags are made with diagonally reinforced corners and double stitched seams

Feather flags should last an average of 2500 flying hours (dependant on location and conditions)

Teardrop flags should last an average of 3000 flying hours (dependant on location and conditions)

Single sided flags are made using a 130gsm skinny knitted polyester

Double sided flags are made using a 210gsm UV coated block out polyester

WHAT PEOPLE SAY

Recently, I approached you to scan a very large and dodgy 120 year old survey plan, made up of 25 pieces held together with tape, glue and I am sure, chewing gum. You carried out this scan very quickly, efficiently and quite clearly, with a huge amount of skill and patience. The scanned image now resides in our hapu GIS system provided an excellent background to our graphical database of historic and sacred sites. Thank you very much for the wonderful service and product you have supplied to us

CUSTOM DESIGNED WALLPAPER

Make a beautiful and eye-catching statement in your home or office with custom designed and printed wallpaper. You can use your own image or we can design one for you, or for a small fee choose from thousands of searchable images on www.shutterstock.com.

- Custom sizing ensures that the wallpaper is made to fit your wall perfectly
- Image enhancement to ensure the highest quality print finish
- Printed using commercial outdoor UV light-fast inks. This ensures the wallpaper won't fade if it is exposed to sunlight
- Easy to clean. The ink won't rub off if you need to remove fly spots or other deposits
- D.I.Y. installation or we can do it all for you

Before we print the final product we will produce a test print so you can see how the finished product will look. This gives you the opportunity to check and change the design if necessary. We have a specific program that enhances the appearance of images. It allows us to enlarge an image far beyond what is perceived possible.

WHAT PEOPLE SAY

"As a proudly Kiwi company, we love incorporating local scenery into our office spaces. Shane and the team at Graphix have brought the beautiful forests, beaches and landmarks of Aotearoa New Zealand right into our meeting rooms in the most incredible way. Their murals feel like you could walk right into them! Not only is the quality truly stunning, Graphix make it all too easy with their professionalism, project management and initiative. Thank you so much Graphix for bringing this idea to life."

LABELS

STAND OUT FROM THE CROWD WITH HIGH-QUALITY VIBRANT EYE-CATCHING LABELS!

Every label has value and can make or break a product. A good label can capture the unique characteristics of the content, grab the attention of a passing shopper and ultimately sell a product and drive repeat purchases. Our new Pro Series Label Printer brings creative printing to life with vibrant colours and high quality. Perfect for on-demand short run label printing.

Printing on a wider range of media is now much easier and can include uncoated, glossy and textured papers and synthetics with a wide range of substrates that can be clear, opaque, metallised, white or coloured.

The system provides a very accurate finishing system that unwinds, laminates labels for durability, digitally die cuts, removes excess label material around each die-cut

shape, slit, and rewinds offering you professionally cut and finished labels.

- Labels for outdoor use, freezer and cold storage eg food, beverages, cosmetics, horticulture and household goods, the uses are endless
- Print promotional or security labels at the touch of a button
- Waterproof and chemical-resistant labelling for home and personal care.
- Individual labels & rolls available

Please contact us for a quote or come to the office to discuss the most suitable labels for your project.

WHAT PEOPLE SAY

Fantastic service and our labels are very good quality, would highly recommend. Carolyn McClutchie - Esme

WINDOW DECALS

Can be applied both to inside and outside glass, and there is both a short term and long term option to suit all uses. Here are a few of the uses for these very versatile products:

- Company logos and imagery for your shop windows
- Window advertising and promotions
- Decorate glass doors and walls in your office
- Decorate your glass balustrades

FLOOR/WALL DECALS

Floor decals have an anti-slip coating that can be applied to carpet or hard surfaces inside or outdoors. Wall decals can be removed and reapplied multiple times. Decals can be used for many temporary or permanent display options

- Health & Safety signage
- Reception areas to greet or inform your customers when they visit
- Trade exhibitions, shops, offices and hospitality venues
- Party decorations

WHAT PEOPLE SAY

Our experience at Graphix was fantastic. From our first engagement, their customer focused process made the whole experience super easy. The Club's stickers quality and detail were above expectations; everyone is super happy with the final product. We will definitely come back for more.

Ruben Cardenas - Oakura Boardriders Club

WHAT PEOPLE SAY

Graphix have been incredibly helpful with meeting our sticker and label requirements – from batch labels, through medal stickers through cute little stickers to identify festival glasses. The team have offered great advice on appearance and design (and have designed stickers from scratch as well), the printing is timely, and with nearly four years' experience of working together, they understand our needs – probably better than we do!

We had met the principal of Graphix prior to working with them, and our impression was of someone who goes the extra mile to make sure things are right. First impressions were right! And not just stickers – banners, posters, bottle labels... They have all been spot on. Thank you team Graphix!

TESTIMONIALS

Thanks so much to Shane and the team at GRAPHIX. I recently got new business cards, pull-up banners and signage made up for the shop front, door and reception desk as I was moving to a new premise.

I cannot recommend the team highly enough. Everything was done so well and in the time frame required. I needed a few things last minute and they went above and beyond to make it happen. Definitely my one stop shop for all my design and printing needs.

Fleur Wilson
Director & Owner of The Laser Lab

Myself and the team from Tupu ā nuku and Te Kāhui Maru would like to thank you for your amazing mahi on the sign writing of our 3 waka (vehicles). It has exceeded our expectations and they definitely catch peoples eyes. The team has been a pleasure to deal with and the wait time was minimal. We are extremely grateful and look forward to using your business in the future.

Dani Toutai - Tupu ā nuku

Thanks so much for all the help getting my Baby Shower Invites/Cards/Welcome Sign all made! Everyone wanted to know where it was from and I was so pleased with how it turned out!

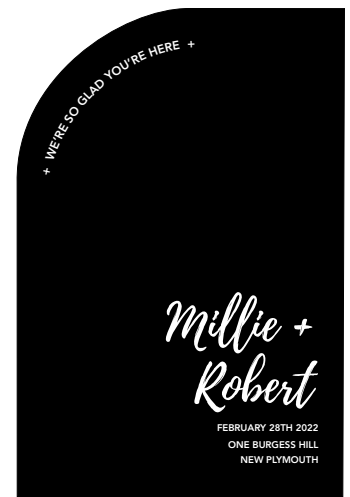

Have been really impressed with the friendly helpful service and how quickly the items got printed! If we ever need anything more done in the future we will certainly be choosing GRAPHIX!

ACRYLIC SIGNS

If you need an acrylic sign we can source this for you. Ideal for those speciality signs and often used in wedding signage, a truly sophisticated looking sign.

Acrylic signs are custom made and available in any shape. Talk to us about how this could work for your next project.

CANVAS PRINTS

Remember the people and places that you love, add colour and interest to your home or office and display photographs and art works that tell a story about who you are. Printing onto canvas is a wonderful way to display old and new images. We can scan original images, print from your digital photo files or for a small fee choose from thousands of searchable images on www.shutterstock.com. We have a specific program that enhances the appearance of images. It allows us to enlarge an image far beyond what is perceived possible.

SO WHAT MAKES OUR CANVAS PRINTS SO MUCH BETTER THAN MANY ON THE MARKET?

All our frames are custom-made to order in our factory. We make the frame fit the picture, not the picture fit the frame. This means your print will be exactly the right size for your home or office. Our frames are a sturdy 35mm deep which means they won't buckle or bow. Floating perimeter framing is also available.

Printed using UV light-fast inks

If a canvas is printed using water based inks, over time it will fade. Also, if it gets dirty with fly spots it will be difficult to clean. Because we use commercial grade, outdoor inks your canvas won't fade if it's exposed to sunlight. And if you need to clean it the ink won't rub off either. Some customers report their canvases still look like new after 10 years.

We make sure your image will print correctly

If your image is old or of low quality we will advise you before we print your canvas. We will produce a test print to show you so that you can decide whether to print it or not. We can also make improvements to your image if you would like us to. We want you to be delighted with your print and proud to hang it in your home, so we'll do everything we can to make sure that happens.

Not just canvas prints...

We can also print your image or design onto wallpaper and vinyl for application in a huge variety of settings. Contact us for more information and pricing for custom sizing.

Discounts available for larger volumes ordered for artists. Distribution is also an option, talk to us today.

BEFORE

PHOTO RESTORATION & IMAGE MANIPULATION

We work with images a lot at GRAPHIX. One of our core skills is restoring old and damaged photos. No matter how bad the damage is we can usually improve it.

We can fix faded colours, scratches, water damage, missing areas and tears.

We can also manipulate images to remove people and objects and change backgrounds.

Even if you think your photo is too damaged to improve give it to us. You'll be amazed at the improvements we can make.

Once we have restored or altered the image we can print it onto a range of different products including:

Canvas - mounted on a wooden frame so you can hang it in your home or office.

Paper - we have a wide range of quality papers that can then be laminated for protection.

Photo paper - ideal for framing and displaying in your home or office.

When things don't go to plan....

At GRAPHIX we can help get that perfect family shot on to a canvas for your home.

TESTIMONIAL

We have been dealing with Graphix for roughly one year and have received nothing short of outstanding service during this period.

Graphix have consistently gone out of their way to meet our specific needs, complete work at short notice and remain in constant contact regarding any projects. Shane has been particularly outstanding, while being overloaded with work, he has never failed to pick up a call and work outside usual hours to ensure we meet our deadlines.

Overall Graphix are exceptional, and we would recommend them to anyone.

SHOWCASE

WR PHILLIPS

WR Phillips has been a locally owned family business for 75 years.

A chance meeting between Julia Phillips and Shane Devlin while dealing with a minor recall with our Mitsubishi Lancer has led to a great working relationship.

They had builders working on the King Street side of their buildings and asked if we could supply large decals for their many brands.

While they had builders already on site we suggested applying the decal to 1.5 x 3 metre ACM sheets to completely freshen up the facade and also give a similar look to the rest of their buildings. This was 5 years ago and it quickly became obvious that our range of services and responsiveness was a great fit.

We now design and supply their demonstrator decals, and did some vinyl application training when their team showed an interest in applying the decals themselves.

We designed and supplied key rings and keep cups as gifts for their clients, designed and erected the temporary ACM sign (8mts x 1.5mts) in front of their new Subaru dealership while under construction and corflute billboards on the porta-com that was used as a temporary office.

The next project was 5 huge canvas prints for the recently opened Subaru showroom. One was the largest we have ever done at 2650 x 1450mm.

They were initially being supplied by the Franchise but they couldn't guarantee supply in time. We only had a week to measure up and do some magic with the images to keep image clarity when enlarged. We were actually advised that one of the images was too small and shouldn't be used. You wouldn't be able to pick that one now. If you are interested in large art or feature walls, drop in and take a look.

Once printed and stretched on to custom frames, Janes Gallery added floating perimeter frames. They look amazing.

Also for the opening we did invitations and window decals and site safety strips on the new glass doors. The opening was a great success.

PROOF & STOCK

Proof & Stock are a local coffee roaster and server located in a stunning converted garage, deep in the heart of residential New Plymouth. Owners Tane and Adrianna are the force behind the bustling coffee hang-out, which is a renowned favourite with locals and tourists alike.

Graphix's relationship with Tane and Adrianna started small, with runs of business cards and gift vouchers for their local coffee spot, along with booklets for their coffee-making courses run out of WITT.

In 2021 they came to us with a new product that they wished to develop. They wanted to find an eco-friendly, multi-use packaging option to sell their coffee beans in. A creative and innovative container that their customers could bring back and refill with each purchase. After much consultation, Tane brought in a small metal flask/canister and worked with the team to craft a unique vinyl wrap for the flasks that were branded in their signature teal colour and Tiki insignia.

After the successful launch of this product, their next idea was to release limited runs of flasks featuring designs from local artists and fill them with new and unique blends to match the art. This posed a new challenge as each artist created their piece of art in a different medium, from pencil to woven to hydro-dipped art. We had to find a way to create a look that was consistent with their brand while matching the colours and integrity of the original art piece. The Wide Format team at Graphix worked closely with Proof & Stock, and the artist on each of the flasks to ensure they got a product that perfectly matched their vision.

Our favourite flask project to date featured artwork from Milarky. It showcased his signature spaceman reaching out for a coffee bean and required us to think outside of the box. utilising unique print colours and finishes. The final flask wrap was on gold vinyl with a white under-print to the coloured image finished with a matt laminate, it is a stunning piece. Ten Artist Flask Series later and there are no signs of stopping soon, each run is a real treasure piece for those lucky enough to snag one of the 33 units in the limited runs.

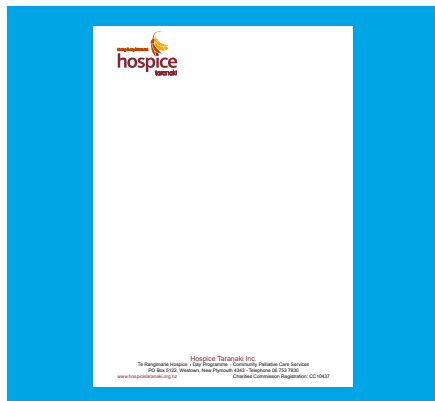

We love working with Tane and Adrianna and getting to experience their creativity and passion for their craft and the region first-hand. We look forward to helping them grow their brand and expand their business.

Thank you guys, for all your help with our latest flask, we love them. Your team are so helpful, and this makes the whole process easy. We look forward to working together on many more projects.

Adrianna - Proof & Stock

SUSTAINABILITY

THE MYTH

Paper is bad for the environment

THE FACT

Paper is one of the few truly sustainable products

As trees grow they absorb CO₂ from the atmosphere. Furthermore, as a wood product, paper also continues to store carbon throughout its lifetime.

SUSTAINABILITY FACTS

- Paper is made from wood, a truly renewable and sustainable resource.
- Forest certification ensures wood comes from well managed forests.
- Responsible wood, pulp and paper production ensures healthy growing forests.
- Between 2005 and 2015, European forests grew by an area the size of Switzerland.
- 71% of wood and 83% of pulp purchased by the European pulp and paper industry is FSC or PEFC certified.
- 91% of production capacity is certified or registered according to the internationally recognised environmental management standards ISO 14001 and EMAS.5

The paper industry uses respected certification schemes to ensure that the paper you use originates from a sustainable forest source. The two most recognised certification schemes are the Forest Stewardship Council® (FSC®) and the Programme for the Endorsement of Forest Certification™ (PEFC™).

Both PEFC and FSC are committed to achieving the same objectives – the certification of forests to credible, independently verified standards of responsible forest management, and focus on conserving the natural habitats of plants and animals and respecting the rights of forestry workers and local communities. Both PEFC and FSC operate robust chain of custody schemes that track wood and wood fibre through every step of the supply chain, from the forest to the end user.

FSC is an international non-profit, multi-stakeholder organisation established in 1993 to promote responsible management of the world's forests. The FSC logo when used on paper and printed products is assurance that it is made with, or contains, wood that comes from FSC certified forests or from post-consumer waste.

For more information visit www.fsc.org

PEFC is an independent, non-profit, non-governmental organisation, founded in 1999 which promotes sustainably managed forests through independent third-party certification. The PEFC logo provides an assurance to purchasers of paper products that the woodfibre originates from PEFC certified, sustainably managed forests.

For more information visit www.pefc.org

Forests are rich in biodiversity and valuable for recreation, water regulation and soil protection. As well as for providing timber and other non-wood forest products, forests are important for mitigating climate change and for the renewable energy sector – over a single year, a mature tree will take up approximately 22 kg of CO₂ from the atmosphere, and, in exchange, release oxygen.
