LABELS & STICKERS

Every label has value and can make or break a product. A good label can capture the unique characteristics of the content, grab the attention of a passing shopper and ultimately sell a product and drive repeat purchases. Our new Pro Series Label Printer brings creative printing to life with vibrant colours and high quality. Perfect for on-demand short run label printing.

Printing on a wider range of media is now much easier and can include uncoated, glossy and textured papers and synthetics with a wide range of substrates that can be clear, opaque, metallised, white or coloured.

The system provides a very accurate finishing system that unwinds, laminates labels for durability, digitally die cuts, removes excess label material around each die-cut shape, slit, and rewinds offering you professionally cut and finished labels.

- Labels for outdoor use, freezer and cold storage eg food, beverages, cosmetics, horticulture and household goods, the uses are endless
- Print promotional or security labels at the touch of a button
- Waterproof and chemical-resistant labelling for home and personal care.

Please contact us for a quote or come to the office to discuss the most suitable labels for your project. www.graphix.co.nz/specialoffers/

WHAT PEOPLE SAY

"We have been very proud to have relied on Graphix since October 2020 to print the labels for our sshhmute boxes. The whole team at Graphix are hard-working, dedicated to their craft, quick & efficient, and 100% reliable. They did a spectacular job designing our new labels when we added a range of colours to our brass practice mutes. As a company that likes to support local Taranaki businesses, Bremner Music is proud to recommend Graphix for all of your printing needs."
